EXECUTIVE SUMMARY

Enthusiastic second-year Mechanical Engineering student with a keen interest in design and manufacturing. Familiar with SolidWorks and basic engineering concepts. A quick learner with good teamwork and communication skills, looking for an internship to gain practical exposure and enhance technical abilities.

EDUCATION

- | | | |
|---|-----------|---------------|
| • B.E - Mechanical Engineering. | 2024-2028 | CGPA:7.589/10 |
| Alagappa Chettiar Government College of Engineering and Technology, Karaikudi, TN | | |
| • HSC +2 | 2023-2024 | 85.6% |
| E.B.G Matriculation Higher Secondary School, Madurai, TN | | |
| • SSLC | 2021-2022 | 70.0% |
| E.B.G Matriculation Higher Secondary School, Madurai, TN | | |

SKILL

Technical Skills: Solidworks (Part , Assembly)

Soft Skills: Team Work, Leadership, Communication, Problem Solving.

INTERNSHIP

Ordinance Factory Tiruchirappalli - June 2026

- Gained practical knowledge of CNC machines and their working processes.
- Learned about CNC machining operations and production processes.
- Observed the operation and working of various machines used in manufacturing.

PROJECT

SMART JUNCTION BOX - Thiran 2024-25

- Developed a smart junction box system designed to improve electrical safety and control. Participated in the Thiran project event to present the innovation

SMART BIKE SAFETY AND HAZARD DETECTION – Thiran 2025–26

- Designed and developed a smart bike safety system to detect hazards using sensors and real-time monitoring techniques.
- Implemented alert mechanisms to warn the rider of obstacles and unsafe conditions, improving overall riding safety.

VIBRATION BASED MACHINE FAULT DETECTOR – CIT Coimbatore 2026

- Developed a vibration-based machine fault detection system to identify abnormalities in machinery.
- Presented the project at Coimbatore Institute of Technology symposium, demonstrating early fault diagnosis using vibration analysis

SMART RAILWAY TRACK CRACK DETECTION ROBOT – ACGCET Karaikudi 2026

- Developed a smart robot to detect cracks in railway tracks using sensor-based monitoring.
- Presented the project at ACGCET, Karaikudi symposium, focusing on improving railway safety.

CO-CURRICULAR ACTIVITIES

FRESHERS' ASSOCIATION OF ACGCET – Coordinator

- Guided first-year students by organizing events, mentoring, and skill development programs to support their academic and personal growth.

AREAS OF INTEREST

- 3D Modeling and CAD Design (SolidWorks)
- Mechanical Design and Product Development
